

Shoulder Rests

These are a personal choice, but I have a few that I always suggest. You are welcome to try any brand that you like!

Note: I have a handful of Resonans shoulder rests at school, and they are affordable (\$11), but you get what you pay for. They fall off easily, don't fit into the curve of your shoulder, and the feet bend. You're welcome to try one before buying, but I don't really suggest them.
